## **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Board of Directors and Shareholders' of  
**Gol Linhas Aéreas Inteligentes S.A.**

We have reviewed the condensed consolidated balance sheet of Gol Linhas Aéreas Inteligentes S.A. (formerly known as Gol Transportes Aéreos S.A.) and subsidiaries as of June 30, 2004 and the related condensed consolidated statements of income for the three-month and six-month periods ended June 30, 2004 and 2003, the condensed consolidated statements of cash flows for the six-month periods ended June 30, 2004 and 2003 and the condensed consolidated statements of shareholders' equity for the six-month periods ended June 30, 2004. These financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical review procedures to financial data, and making inquiries of persons responsible to financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with auditing standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Gol Linhas Aéreas Inteligentes S.A. (formerly know as Gol Transportes Aéreos S.A.) and subsidiaries as of December 31, 2003, and the related consolidated statements of income, cash flows and shareholders equity for the year then ended not presented herein, and in our report dated March 5, 2004, except for Notes 1 and 8, as to which the date is May 25, 2004, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2003 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Any request for conversion must be delivered to the board of executive officers and, once accepted by the board of executive officers must be confirmed by the board of directors at the first meeting after the date of the request of conversion.

#### **2. Basis of presentation of the condensed consolidated interim financial statements**

The unaudited condensed consolidated interim financial statements were prepared to reflect the combined financial position and the combined results of operations as if the Company had been set up on January 1, 2001 and as if the aforementioned corporate reorganization had occurred at that date.

The accompanying unaudited condensed consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles in the United States for complete financial statements. In the opinion of management, all adjustments consisting of normal recurring nature, considered necessary for a fair presentation, have been included.

The results of the six-month period ended June 30, 2004 are not necessarily indicative of the results that might be expected for the full year ending December 31, 2004. The balance sheet at December 31, 2003 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles in the United States for complete financial statements. The accompanying consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes for the year ended December 31, 2003.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's registration statements in Form F-1 for the year ended December 31, 2003.

At June 30, 2004, the Company's primary monetary assets and liabilities related to aircraft leasing operations. Due to the short-term nature substantially all other financial instruments included in the balance sheet are stated at amounts that approximate their fair values.

Financial instruments that expose the Company to credit risk involve mainly cash and accounts receivable. The Company maintains cash deposits with highly rated financial institutions. Credit risk on accounts receivable relates to amounts receivable from the main international credit card companies. These receivables are short-term and the majority of them settle within 30 days.

The Company's revenue is basically generated in Brazilian reais, however its liabilities, particularly those related to aircraft leasing, are U.S. dollar denominated.

Exchange exposure related to amounts payable arising from these leasing operations is managed together with commercial hedging strategies.

The Company is exposed to the effect of changes in the price and availability of aircraft fuel. To manage these risks, the Company entered into crude oil option and swap agreements. Prices for crude oil are highly correlated to jet fuel, making crude oil derivatives effective at offsetting jet fuel prices to provide some short-term protection against a sharp increase in average fuel price. These derivatives do not qualify as hedges for financial reporting purposes and changes in fair value of such derivative contracts was R\$1,907 during the six months ended June 30, 2004 and R\$943 during the three months ended June 30, 2004, and were recorded as financial income. As of June 30, 2004 the Company had derivative contracts to buy up to 115,000 barrels of crude oil in the nominal amount of US\$4,204 with one-month term. Due the short-term nature of these contracts the fair value is minor. The Company's acquisition of fuel and oil is made substantially from one supplier.

In connection with the Company's March 29, 2004 reorganization, the Extraordinary General Meeting of the Company's shareholders approved the merger of stockholder BSSF II Holdings Ltd. into GOL. The preferred shares previously owned by BSSF II Holdings Ltda. were cancelled and reissued to BSSF Air Holdings Ltda. With this merger, the Company acquired the right to amortize for Brazilian local statutory and tax purposes a goodwill premium of approximately R\$86 million generated from BSSF II Holdings Ltd. acquisition of its ownership in GOL. The amortization of this premium for local statutory and tax purposes will result in future tax benefit for the Company over an estimated period of up to five years. The R\$29.2 million tax benefit of the goodwill premium has been recorded as a deferred tax asset at March 31, 2004, with a corresponding increase to additional paid in capital. As the Company realizes the tax benefit of the goodwill premium, a reclassification from additional paid in capital to commons shares will be made.

**12. Earnings per share**

The Company's preferred shares are not entitled to receive any fixed dividends. Rather, the preferred shareholders are entitled to receive dividends per share in the same amount of the dividends per share paid to holders of the common shares. Consequently, basic earnings per share are computed by dividing income by the weighted average number of all classes of shares outstanding during the year. The diluted preferred shares are computed including the executive employee stock options calculated using the treasury-stock method as they were granted at an exercise price less than the market price of the shares.
