

GOL announces Operating Profit of R\$327 million and Net Income of R\$328 million for the period

Brazil's #1 airline achieved an EBITDA margin of 17.0% and updates its outlook for 2017

São Paulo, November 8, 2017 - GOL Linhas Aéreas Inteligentes S.A. ("GOL" or "Company"), (NYSE: GOL and B3: GOLL4), Brazil's #1 airline, announces its consolidated results for the third quarter of 2017 (3Q17) and for the nine months through September 30, 2017 (9M17). All information is presented in accordance with IFRS, in Brazilian Real (R\$), and all comparisons are with the third quarter of 2016 (3Q16) and for the corresponding nine months of 2016 (9M16), unless otherwise stated.

Financial and Operational Highlights

Net revenue reached R\$2.7 billion, an increase of 13.2% compared to 3Q16. In the accumulated 9M17, GOL achieved net revenue of R\$7.6 billion, an increase of 5.5% in relation to 9M16.

GOL provides new 2017 full year EBITDA margin guidance of 14%, at the top of the previously disclosed range of 12 - 14%.

GOL transported a total of 8.3 million passengers in 3Q17, an increase of 2.2% over 3Q16. In 9M17, the total number of passengers transported was 23.8 million, a decrease of 3.0% over 9M16. Passenger revenue increased by 14.1% in 3Q17, reaching R\$2.4 billion.

The Company's operating fleet, excluding sub-leased aircraft, at the end of 3Q17 was 116 Boeing 737 aircraft, stable compared to the same period in 2016. Net revenue per aircraft was R\$23.4 million (US\$7.4 million) this quarter.

Cargo revenues and others increased by 7.0% in 3Q17 when compared to 3Q16, reaching R\$323.3 million or 11.9% of net operating revenue. In 9M17, they totaled R\$1.0 billion, an increase of 16.7% compared to 9M16.

In 3Q17, Smiles' net income was R\$339.5 million, an increase of 134.6% compared to 3Q16, due to the use of deferred tax credits arising from its incorporation by Webjet. Net revenue increased 10.7% reaching R\$440.8 million, compared to R\$398.3 million in 3Q16.

Recurring operating income (EBIT) in 3Q17 was R\$326.9 million, an increase of 49.3% over 3Q16. Recurring EBIT margin was 12.0% in 3Q17, an increase of 2.9 p.p. compared to the same period of 2016.

Net income in the period was a profit of R\$327.6 million, after the minority interest, representing a net margin of 12.1%, a positive result in comparison of a loss of R\$0.9 million in 3Q16. In this quarter, the EPS was of R\$0.94 and the EPADS was of US\$1.49. Total liquidity, including cash, financial investments, restricted cash, and accounts receivable, totaled R\$2,118.1 million, increasing 19.6% over the prior quarter and 15.8% over 3Q16 figures.

Adjusted total net debt, excluding the perpetuals, decreased by R\$3.4 billion when compared to 3Q16, reaching R\$10.2 billion in 3Q17. The adjusted net debt ratio to annualized EBITDAR was 4.8x as of September 30, 2017, down from 5.6x at June 30, 2017 and 6.5x as of a year ago.

Recurring total CASK increased by 5.0% in 3Q17 compared to 3Q16, reaching 19.90 cents (R\$). For 9M17, this indicator decreased by 0.1% to 19.98 cents (R\$) compared to 9M16.

RPKs increased by 5.1%, from 9,173 million in 3Q16 to 9,638 million in 3Q17, largely due to the increase in the average stage length by 2.3%. In 9M17, demand reached 27,334 million, an increase of 2.1% compared to 9M16, also largely attributable to the increase of average stage length by 5.9%.

Earnings Release

Third Quarter 2017

In the quarter, ASKs totaled 12,015 million, an increase of 4.5% compared to 3Q16. This increase is a reflection of an increase in the number of departures by 2.0% in relation to 3Q16, in addition to the growth in average stage length by 2.3%. In 9M17, there was a decrease in ASKs of 0.1% in relation to 9M16, reaching 34,481 million.

The average load factor in 3Q17 increased by 0.4 p.p. compared to 3Q16, reaching 80.2%. In the 9M17, this ratio was 79.3%, an increase of 1.8 p.p. over 9M16. The average yield per passenger increased by 8.6% in the quarter compared to 3Q16, reaching 24.85 cents (R\$). In 9M17, yield increased by 1.8% compared to 9M16.

RASK increased 8.3% in relation to 3Q16 with 22.62 cents (R\$), and an increase of 5.6% in 9M17 compared to 9M16, reaching 22.03 cents (R\$). Average fare was R\$288, an increase of 11.6% in relation to 3Q16 (R\$259). For the 9M17, the average fare increased by 7.2% compared to 9M16, reaching R\$277.

According to ANAC, the National Civil Aviation Agency, GOL maintained its market leadership in the domestic air transport sector at the end of 3Q17 achieving a share of 36.0%. In the international market, the company registered a market share of 10.8%.

GOL is a leading airline considering its on-time departures of 95.6%, during 3Q17 (INFRAERO data). In terms of average flight completion, in this quarter, the company stood at 98.3%. The number of passenger claims and lost baggage per 1,000 passengers was 1.38 and 1.93, during 3Q17 and 9M17 respectively.

GOL's ADRs had an average daily trading volume on the NYSE of US\$4.9 million (R\$15.4 million) in 3Q17, compared to US\$4.1 million (R\$13.3 million) in 3Q16. Preferred shares had an average daily trading volume on the B3 of R\$32.1 million in 3Q17, compared to R\$20.8 million in 3Q16.

Recent Events

GOL was recognized as the most trusted brand in the Brazilian airline industry, receiving the "Brands of Trust Award 2017", promoted by Seleções Readers Digest magazine and conducted by Datafolha. This 16th edition of the survey included 37 categories of products and services, as well as institutions, professions, NGOs and Brazilian personalities. Awards such as this validate our employees' dedication to making GOL the first choice for air travel in Brazil.

In another recognition of its brand strength, the Company won the "Top of Mind 2017" award from Datafolha, the research institute of Folha de São Paulo. This recognition in the airline segment reveals the strength of the brand in the minds of consumers. In addition, this award also indicates that GOL can further strengthen its brand presence through excellent customer service.

In October, GOL announced the first regular international operation from the Aracaju International Airport in Sergipe, where customers will have a Saturday flight to Buenos Aires. This is GOL's eighth base in northeastern Brazil with flights to Argentina. Currently, the Company has the largest number of flights to Argentina from Brazil, providing operations to Buenos Aires (Aeroparque and Ezeiza), Cordoba, Rosario and Mendoza with departures from 12 Brazilian cities: São Paulo, Rio de Janeiro, Florianópolis, Belo Horizonte, Manaus, João Pessoa, Recife, Salvador, Fortaleza, Natal, Porto Seguro and Maceió.

Management's Comments on Results

"We once again renewed our commitment to continuous improvement in customer experience, strong discipline in the supply of seats, high load factors, and unrelenting cost control to generate significant results. As a result of our efforts and discipline, recurring EBITDA margin increased by 3.7 p.p. in relation to 3Q16," commented the Company's CEO, Paulo Kakinoff.

With a 5.1% increase in demand in the quarter, net revenue for the period grew 13.2% to R\$2.7 billion. Such positive result was also consequence of capacity rationalization, accurate yield management and improved aircraft utilization, which increased by 7.4% in the quarter.

Linhas aéreas inteligentes

Earnings Release

Third Quarter 2017

"The Company recorded recurring operating income (EBIT) of R\$327 million in 3Q17, with a recurring operating margin of 12.0%. We have had five consecutive quarters with positive operating results, and have now begun to show strong net income generation as well" added Richard Lark, Chief Financial Officer.

We have now been the lowest cost carrier in Brazil for 16 consecutive years, due to our unique and standardized fleet (lower costs with crew, management of spare parts and "best-in-class" maintenance), in addition to lean and productive operations with reduced exposure to fixed costs. Aircraft usage was 12.3 block hours per day (an increase of 7.4% over 3Q16). The number of transported passengers in 3Q17 increased 2.5% in relation to 3Q16. GOL's Load Factor increased by 0.4 p.p. to 80.2%. "Such advantages establish us as the largest Brazilian airline and the pioneer in new technologies and customer services", concluded Richard Lark.

Reinforcing our commitment to customer satisfaction and operations safety, in August, we opened the new Training Center, located at our Congonhas Airport Headquarters. The building that once housed propeller repair shops on the Electra II aircraft, now houses knowledge that will help develop our technical and commercial crews. The new center has the capacity to train up to 400 people per day, with a total of six classrooms, one computer room and two airplane mockups: one open, located in the auditorium with 114 seats, and the other closed, a reconstruction of a Boeing 737, where fire, smoke, depressurizing simulations will be conducted, among others.

We are focused on providing the best flight experience to GOL's clients. According to INFRAERO, in the quarter ended September 2017, the Company remained the leader in on-time flights in Brazil, for the 9th consecutive semester, with a rate of 95.6% of flights departing on time, that is, more than 61,000 flights in the period. One of the reasons that confirms us as a dedicated and reliable company that values people's time is our commitment to being on-time. We will continue working hard to remain as the most on-time company.

For the future, our expectation is to further improve our efficiency, incorporating the new Boeing 737 MAX 8s, which will begin arriving in the second half of 2018, and reconfiguring our 737-800NGs from 177 to 186 seats.

In the quarter, GOL announced a sale and leaseback transaction with GE Capital Aviation Services ("GECAS") for five 737 MAX 8 aircraft, with capacity for 186 customers and configured with GOL+Conforto seats for domestic flights and GOL Premium Class for international flights. With flight autonomy of up to 6,500 km, the new 737 MAX 8 aircraft allow GOL to offer non-stop flights from Brazil to any destination in Latin America as well as to Florida. The Company also formalized a sale and leaseback transaction, also with GECAS, of two Boeing 737-800NG aircraft.

Furthermore, the Company announced the Fortaleza airport as a new hub with Air France-KLM. The choice for Fortaleza took into account its economic potential and its location, not only because of its proximity to Europe, but also because it is strategically positioned in a region close to other cities in the North and Northeast. This brings us the opportunity to provide customers with faster and more efficient connections, making the flights from this hub more attractive due to the shortest travel time.

"We remain focused on offering the best air travel experience with exclusive services to our customers, with new and modern aircraft with frequent flights and integrated routes in the main markets. Over 50% of our fleet already has eco leather seats and Wi-Fi on board, as well as selfie check-in, low fares, GOL+Conforto seats and a broader menu of products offered in our Onboard Service, which caters to diverse customer preferences", concluded Kakinoff.

Earnings Release

Third Quarter 2017

Linhas aéreas inteligentes

Domestic market – GOL

In this quarter, GOL domestic supply increased by 3.9% over 3Q16. Demand increased by 4.5% in 3Q17 and load factor reached 80.9%, an increase of 0.5 p.p. when compared to 3Q16.

In 9M17, domestic supply expanded 0.2% in comparison to 9M16, while demand was up 2.4% in the same period. Load factor improved by 1.7 p.p., reaching 79.6% in 9M17.

GOL transported 7.8 million domestic passengers in the quarter, representing an increase of 2.6%, when compared to the same period in 2016. The company is the leader in number of transported passengers in Brazil's domestic aviation market.

International market - GOL

GOL's international supply increased 9.1% in the quarter compare to 3Q16. In 9M17, The Company showed a decrease of 2.7% when compared to the 9M16.

International demand increased 10.1% in 3Q17 when compared to the 3Q16 and was stable for 9M17 when compared to 9M16. International load factors recorded in 3Q17 were 75.3%, increasing 0.7 p.p. over 3Q16. In 9M17, load factors reached 76.4%, a growth of 2.1 p.p. in relation to 9M16. During the quarter, GOL transported 0.5 million passengers in the international market, an increase of 5.3% when compared to the third quarter of 2016.

Volume of Departures and Total seats - GOL

The total volume of GOL departures was 63,800, an increase of 2.0% in 3Q17 over 3Q16. This volume totaled 185,700 departures for 9M17, down 6.0% when compared to 9M16, due to the rationalization of our network that we carried out in May 2016. The total number of seats available to the market was 10.7 million in the third quarter of 2017, an increase of 2.4% over the same period of 2016. For 9M17, the total number of seats was 31.1 million seats, a decrease of 5.7% over 9M16.

PRASK, Yield and RASK

Net PRASK increased by 9.2% in the quarter when compared to 3Q16, reaching 19.93 cents (R\$), due to the growth of net revenue with passengers in 14.1% in the quarter. In 9M17, net PRASK reached 19.08 cents (R\$), an increase of 4.1% compared to 9M16.

Our Net RASK was 22.62 cents (R\$) in 3Q17, an increase of 8.3% over 3Q16. In 9M17, it was 22.03 cents (R\$), an increase of 5.6% over the same period of 2016.

Net *yield* increased by 8.6% in 3Q17 compared to 3Q16, reaching 24.85 cents (R\$), largely due to the 11.3% increase in our average fare. For 9M17, net *yield* increased by 1.8% when compared to 9M16, reaching 24.06 cents (R\$).

Net revenue

Net revenue in 3Q17 reached R\$2.7 billion, an increase of 13.2% when compared to 3Q16, with RPKs increasing by 5.1%, from 9,173 million in 3Q16 to 9,638 million in 3Q17. In addition to revenue from cargo transportation and others, revenues from *interline* passengers coming from domestic flights and implementation of the first bag fee also contributed to this increase. Revenue from international passengers totaled R\$372.8 million in the quarter, a growth of 11.5% when compared to the same period of 2016, representing 13.7% of the total net revenue.

Load factor increased by 0.4 p.p., reaching 80.2% in the quarter due to an increase in demand, in relation to the change in ASKs.

Average fare increased by 11.6%, from R\$259 to R\$288, as a result of the strong demand environment and increased penetration with corporate clients. For 9M17, the average fare reached R\$277, a growth of 7.2% in relation to the same period of 2016.

Demand for GOLLOG's freight services is closely related to economic activity, and revenue from cargo transportation and others was R\$323.3 million in 3Q17, an increase of 7.0% when compared to 3Q16.

Operating expenses

In the 3Q17, the total CASK grew by 5.8%, from 18.84 cents to 19.93 cents (R\$), as total operating expenses increased by 10.5%, reaching R\$2.4 billion. The key drivers of this growth were 2017 profit sharing provisions, depreciation and amortization, and the effect of sale-leaseback operations in 3Q17. Excluding 3Q17 non-recurring expenses, CASK was 19.90 cents (R\$), an increase of 5.0% when compared to 3Q16.

Operating expenses per ASK, ex-fuel, increased by 8.3% to 14.11 cents (R\$). The *breakeven load factor* decreased by 1.3 p.p., reaching 70.7% vs. 72.0% in 3Q16, due to growth in net operating revenues of 13.2% in the quarter. The breakdown of GOL's operating costs and expenses is as follows:

Operating expenses (R\$ MM) ²	3Q17	3Q16	% Var.	9M17	9M16	% Var.

Earnings Release

Third Quarter 2017

Aircraft fuel per ASK increased by 0.3% over 3Q16 to 5.82 cents (R\$), due to an increase in the price of the fuel liter by 1.7% and higher total consumption, partially offset by the increase of ASK by 4.5% in the quarter.

Salaries, wages and benefits per ASK increased by 20.8% to 3.99 cents (R\$), mainly due to the increase in provisions for profit sharing and cost of living adjustments on labor contracts.

Aircraft rent per ASK decreased by 17.6% in relation to 3Q16, to 1.91 cents (R\$), mainly due to the lower number of aircraft in the quarterly comparison and appreciation of real against average dollar by 2.5% in the period.

Sales and marketing per ASK increased by 13.9% over 3Q16, to 1.35 cents (R\$), due to the increase in sales incentives and with the new campaign #NOVAGOL.

Landing fees per ASK decreased by 5.1% over 3Q16 to 1.40 cents (-0.9% in nominal terms), due to greater rationalization of the network.

Passenger costs decreased by 14.9% in relation to 3Q16, to 0.91 centavos (R\$) (-11.1% in nominal terms), due to the reduction of expenses with reimbursement of tickets.

Services Provided per ASK increased by 16.8% in relation to 3Q16, to 1.72 cents (R\$) (22.1% in nominal terms), mainly due to the increase in the cost of purchasing Smiles products and tickets in the quarter.

Maintenance materials and repairs per ASK decreased by 17.2% in relation to the third quarter of 2016, to 0.75 cents (R\$) (-13.6% in nominal terms), due to efficiency in the maintenance process, fleet restructuring and appreciation of real against average dollar in the period.

Depreciation and amortization per ASK increased by 29.4% over 3Q16, to 1.13 cents (R\$) (35.2% in nominal terms), due to the depreciation of capitalized engines.

Other expenses per ASK reached 0.95 cents (R\$), an increase of R\$64.4 million in nominal terms compared to the third quarter of 2016. The comparison includes gains in 3Q16 on sale-leaseback operations, and rents on subleasing of aircraft.

Operating result

Operating result (EBIT) recorded in the third quarter was of R\$323.1 million, an increase of 38.9% compared to the same period in 2016. In terms of operating margin, 3Q17 ended with an 11.9% margin, an increase of 2.2 p.p. in relation of 3Q16. Excluding non-recurring results, EBIT reached R\$326.9 million, an improvement of 49.3% when compared to the same period in 2016. The recurring operating margin increased by 2.9 p.p. in relation to 3Q16, reaching 12.0% for the quarter.

The impact of an increase of 1.74 cents (R\$) in RASK and 1.09 cents (R\$) in CASK resulted in an increase in EBITDA per available seat-kilometer to 3.82 cents (R\$) in 3Q17, an increase of 0.93 cents (R\$) compared to 3Q16. Recurring EBITDA in 3Q17 totaled R\$463.2 million in the period, a 44.8% increase compared to 3Q16. On a per available seat kilometer basis, EBITDAR was 5.73 cents (R\$) in 3Q17, compared to 5.21 cents (R\$) in 3Q16 (an increase of 10.0%).

*In accordance with CVM Instruction 527, the Company presents the reconciliation of EBIT and EBITDA, whereby: EBIT = net income (loss) plus income and social contribution taxes and net financial result; and EBITDA = net income (loss) plus income and social contribution taxes, net financial result, and depreciation and amortization. We also show the reconciliation of EBITDAR, given its importance as a specific aviation industry indicator, whereby: EBITDAR = net income (loss) plus income and social contribution taxes, the net financial result, depreciation and amortization, and aircraft operating lease expenses; * Certain variation calculations in this report may not match due to rounding

Net financial result

Net financial income was R\$28.7 million, an improvement of R\$129.6 million compared to 3Q16. Interest expense decreased R\$29.0 million versus 3Q16, reaching R\$168.1 million. Net income from derivatives decreased R\$164.4 million over 3Q16, mainly due to gains from hedging operations.

Interest expense totaled R\$168.1 million in 3Q17, a decrease of 14.7% over 3Q16. For 9M17, interest expenses totaled \$573.7 million, a reduction of 6.5% when compared to the same period in 2016.

Net exchange and monetary variation totaled a gain of R\$242.2 in 3Q17, due to the appreciation of the Brazilian Real vs. the US Dollar (final exchange rate for the period), which strengthened from R\$3.2462 at September 30, 2016 to R\$3.1680 at September 30, 2017.

Gains from financial investments totaled R\$22.8 million in 3Q17, a reduction of 32.6% over 3Q16, explained by the lower gains on financial investments and investment funds.

Net result of derivatives was a positive of R\$32.2, improving R\$164.4 million in relation to 3Q16, which presented a negative result of R\$132.2 million.

Other financial expenses totaled a negative R\$100.4 million in 3Q17, versus a positive R\$228.0 million in 3Q16. The 3Q16 figure was positively impacted by the discount obtained on the senior notes as a consequence of GOL's 2016 debt restructuring. The negative value in the 3Q17 quarter was partially impacted by a R\$23.3 million increase in interest related to provisions for PIS and COFINS payments on interest on shareholders' equity.

Hedge result

The Company uses hedge accounting to account for some of its derivative instruments. In 3Q17, GOL registered a gain of R\$29.4 million from hedge operations.

Results (R\$ million) 3Q17	Fuel	Interest Rates	Stock Term	Total
Subtotal - Designated for Hedge Accounting	-	(3.0)	11.7	8.8
Subtotal - Not Designated for Hedge Accounting	20.6	-	-	20.6
Total	20.6	(3.0)	11.7	29.4
<i>OCI (net of taxes, on June 30, 2017)*</i>	-	-	-	(118.8)

*OCI (Other Comprehensive Income) or Statement of Comprehensive Income (loss) is a transitional account where positive and negative fair value adjustments of derivatives recorded as hedge accounting, designated as effective for hedging cash flow. GOL records the fair value of hedges due in future periods whose aim is to protect cash flow

Results (R\$ million) 3Q17	Fuel	Interest Rates	Stock Term	Total
Financial Result	20.6	-	11.7	32.3
Operating Result	-	(3.0)	-	(3.0)
Total	20.6	(3.0)	11.7	29.4

Fuel: fuel hedge operations were made through derivative contracts of call options and "zero cost collars" (calls bought and puts sold) tied to the WTI, and totaled gains of R\$20.6 million in 3Q17.

Interest: swap operations to protect the cash flow of contracted leases, whose installments to be paid are exposed to the volatility of the Libor rate until receiving aircraft, totaled losses of R\$3.0 million in 3Q17.

Stock Term: On September 30, 2017, the Company had a rental transaction and third parties shares with a term derivative linked to the transaction, aimed at neutralizing the risk of volatility of the shares of third parties leased in the market. These operations resulted in total gains for the company at R\$11.7 million.

Income tax

On March 10th and September 19th of 2017, the subsidiary GLA subscribed to the Tax Regularization Program (PRT), which allowed the partial settlement of taxes with tax losses. The payment option chosen by GLA was the reduction of 76% of the debt with the use of tax credits on tax losses and the payment of 24% of the debt in 24 monthly installments adjusted by the SELIC rate from the month of subscription.

Income tax in the third quarter of 2017 totaled R\$136.1 million, due to an increase of R\$179.4 million in deferred income tax.

Net income and Earnings per Share (EPS) after minority interest

Reported net income after minority interest in 3Q17 was of R\$327.6 million, representing a net margin of 12.1%, an increase of R\$328.2.1 million when compared to 3Q16.

(R\$ MM)	3Q17	3Q16	% Var.	9M17	9M16	% Var.
Net income (loss) before minority interest	488.0	65.9	640.4%	314.3	1.132.5	-72.2%
Minority Interest	160.4	66.8	140.1%	300.9	178.2	68.9%

EPS in R\$ after minority interest	0.94	(0.00)	NM	0.04	2.76	-98.6%
Weighted average ADS outstanding	69.5	69.4	0.1%	69.5	69.4	0.1%
Earnings per ADS in US\$ after min. interest	1.49	(0.00)	NM	0.06	3.87	-98.4%

¹ Non-onerous transfer of preferred shares related to the premiums granted to the beneficiaries under the Company's Restricted Share Plan ("Plan"), after the vesting period, as defined in the Plan.

Earnings per share after minority interest were R\$0.94 in 3Q17. The number of shares used for calculation was 347,716,938 in 3Q17 and 347,242,172 in 3Q16, considering the ratio of 35 common shares per preferred share.

Reported net income after minority interest per ADS was US\$1.49 in 3Q17. The weighted average number of ADSs was 69.5 million in 3Q17 and 69.4 million in 3Q16, based on GOL's current ratio of the number of preferred shares per ADS of 5:1 (updated in May 2017).

In 3Q17, our loyalty program Smiles' net income was R\$339.5 million, representing a net margin of 77.0%. This represents an increase of 40.7 p.p. over the 36.3% net margin in 3Q16, due to the use of deferred tax credits arising from its incorporation by Webjet. Net revenue expanded 10.7% to R\$440.8 million in the quarter, compared to R\$398.3 million recorded in 3Q16. Operating income was R\$159.6 million, 1.8% lower than 3Q16, representing an operating margin of 36.2%, lower by 4.6 p.p. in the quarterly comparison, primarily due to higher costs with salaries, wages and benefits and miles redemption.

The following table is a summary of the results of our Smiles subsidiary:

Operating Data (billion)	3Q17	3Q16	% Var.	9M17	9M16	% Var.
Miles Accrual (ex-GOL)	20.4	12.2	67.2%	57.2	35.7	66.7%

Cash Flow

Cash, cash equivalents and short-term investments recorded an increase of R\$347.6 million during 3Q17.

Operating activities generated net cash of R\$620.3 million, partially supported by an increase in air traffic liability (R\$97.3 million) and a decrease in deposits (R\$110.9 million), and affected by the reduction in the balance of accounts receivable (R\$104.3 million).

The investment activities required R\$201.0 million of cash, mainly due to a net increase in the balance in property, plant and equipment (R\$252.9 million). Cash used in financing activities was R\$71.7 million.

Net cash flow was positive R\$419.3 million for the quarter.

1- Management cash flow: some items were reclassified for better presentation. The groups may not be comparable with the totals presented in our financial statements.

2- Net cash flow = Net Income (Loss) After Adjusting Non-Cash Items + cash flow from operating activities + cash flow from investing activities.

Capital Expenditures

Net capex in the quarter ended September 30 of 2017 with a cash effect was R\$146.5 million, mainly due to the capitalization of engine maintenance in the period.

Total Fleet

Final	3Q17	3Q16	Var.	2Q17	Var.
Boeing 737-NGs	120	135	-15	120	0
737-800 NG	92	102	-10	92	0

Financial Leasing (737-NG)	31	34	-3	31	0
Operating Leasing (373-NG)	89	101	-12	89	0

At the end of 3Q17, out of a total of 120 Boeing 737-NG aircraft, GOL was operating 116 aircraft on its routes. The four-remaining aircraft were sub-leased to another airline.

In 3Q16, out of a total of 135 aircraft, GOL was operating 116 aircraft on its routes. Of the 19 remaining aircraft, 11 were in the process of being returned to the lessors and 8 were sub-leased to other airlines.

GOL has 89 aircraft under operating leasing arrangements and 31 aircraft under financial leasing. 31 aircraft of the total fleet have a purchase option for when their leasing contracts expire.

Earnings Release

Third Quarter 2017

Linhas aéreas inteligentes

The average age of the fleet was 8.9 years at the end of 3Q17. In order to maintain this low average, the Company has 120 firm Boeing 737 MAX 8 acquisition orders for fleet renewal by 2028. The first Boeing 737 MAX aircraft is expected to be received by the Company in July 2018.

Pre-Delivery Payments (R\$ million)	52.8	466.9	758.9	5,146.7	6,425.3

* Considers aircraft list price

The Company continues to carry out maintenance procedures with excellence both in its equipment and in the provision of services to other operators and to its partner Delta, as already proven through certifications by the regulatory agencies ANAC- National Civil Aviation Agency, the American regulatory agency FAA - Federal Aviation Administration and recently by EASA - European Aviation Safety Agency, the aeronautical regulator of the European community. This certification ratifies the high standard and excellence in aircraft and component maintenance services that reaffirms GOL's commitment to ensuring that its processes, manuals and maintenance training programs are in line with aviation global best practices.

Liquidity and Indebtedness

As of September 30, 2017, the Company registered total liquidity (total cash, including cash and cash equivalents, financial investments, restricted cash and accounts receivables) of R\$2,118.1 million, an increase of R\$347.6 million over the cash position of June 30, 2017. Accounts Receivable totaled R\$961.8 million, consisting mostly of ticket sales via credit card and accounts receivable from travel agencies, increasing 11.8% versus 2Q17.

Loans and financing

The Company registered total loans and financings in 3Q17 of R\$5,920.8 million (including finance leases), a reduction of 6.7% versus 3Q16.

Adjusted net debt/LTM EBITDA ratio (excluding the perpetual notes) fell to 3.4x for the period, compared to 4.2x in 2Q17.

The average maturity of the Company's long-term debt in 3Q17, excluding aircraft financial leasing and perpetual notes, was 2.9 years, compared to 3.2 years in 2Q17. GOL's average interest rate was 10.7% for local-currency debt, compared to 13.4% in 2Q17, and 7.5% for Dollar-dominated debt, compared to 7.6% in 2Q17.

Financial Debt amortization schedule 3Q17 (R\$ MM)

Outlook

Based on nine-month 2017 actual results, the Company is revising its financial outlook for full-year 2017.

Financial Outlook	2017 Previous	9M17 (actual)	2017 Revised

Earnings Release

Third Quarter 2017

Glossary of industry terms

- AIRCRAFT LEASING:** an agreement through which a company (the lessor), acquires a resource chosen by its client (the lessee) for subsequent rental to the latter for a determined period.
- AIRCRAFT UTILIZATION:** the average number of hours operated per day by the aircraft.
- AVAILABLE SEAT KILOMETERS (ASK):** the aircraft seating capacity multiplied by the number of kilometers flown.
- AVAILABLE FREIGHT TONNE KILOMETER (AFTK):** cargo capacity in tonnes multiplied by number of kilometers flown.
- AVERAGE STAGE LENGTH:** the average number of kilometers flown per flight.
- BLOCK HOURS:** the time an aircraft is in flight plus taxiing time.
- BREAKEVEN LOAD FACTOR:** the passenger load factor that will result in passenger revenues being equal to operating expenses.
- BRENT:** oil produced in the North Sea, traded on the London Stock Exchange and used as a reference in the European and Asian derivatives markets.
- CHARTER:** a flight operated by an airline outside its normal or regular operations.
- EBITDAR:** earnings before interest, taxes, depreciation, amortization and rent. Airlines normally present EBITDAR, since aircraft leasing represents a significant operating expense for their business.
- FREIGHT LOAD FACTOR (FLF):** percentage of cargo capacity that is actually utilized (calculated dividing FTK by AFTK)
- FREIGHT TONNE KILOMETERS (FTK):** weight of revenue cargo in tonnes multiplied by number of kilometers flown by such tonnes.
- LESSOR:** the party renting a property or other asset to another party, the lessee.
- LOAD FACTOR:** the percentage of aircraft seating capacity that is actually utilized (calculated by dividing RPK by ASK).
- LONG-HAUL FLIGHTS:** long-distance flights (in GOL's case, flights of more than four hours' duration).
- OPERATING COST PER AVAILABLE SEAT KILOMETER (CASK):** operating expenses divided by the total number of available seat kilometers.
- OPERATING COST PER AVAILABLE SEAT KILOMETER EX-FUEL (CASK EX-FUEL):** operating cost divided by the total number of available seat kilometers excluding fuel expenses.
- OPERATING REVENUE PER AVAILABLE SEAT KILOMETER (RASK):** total operating revenue divided by the total number of available seat kilometers.
- PASSENGER REVENUE PER AVAILABLE SEAT KILOMETER (PRASK):** total passenger revenue divided by the total number of available seat kilometers.
- REVENUE PASSENGERS:** the total number of passengers on board who have paid more than 25% of the full flight fare.
- REVENUE PASSENGER KILOMETERS (RPK):** the sum of the products of the number of paying passengers on a given flight and the length of the flight.
- SALE-LEASEBACK:** a financial transaction whereby a resource is sold and then leased back, enabling use of the resource without owning it.
- SLOT:** the right of an aircraft to take off or land at a given airport for a determined period of time.
- SUB-LEASE:** an arrangement whereby a lessor in a rent agreement leases the item rented to a third party.
- TOTAL CASH:** the sum of cash, financial investments and short and long-term restricted cash.
- WTI BARREL:** West Texas Intermediate – the West Texas region, where US oil exploration is concentrated. Serves as a reference for the US petroleum byproduct markets.
- YIELD PER PASSENGER KILOMETER:** the average value paid by a passenger to fly one kilometer.

About GOL Linhas Aéreas Inteligentes S.A. (“GOL”)

Brazil's largest airline group. **GOL** is Brazil's largest airline, carrying 33 million passengers annually on more than 700 daily flights to 63 destinations, 52 in Brazil and 11 in South America and the Caribbean, on a fleet of 120 Boeing 737 aircraft, with a further 120 Boeing 737 MAX on order. **GOLLOG** is a leading cargo transportation and logistics business serving more than 2,200 Brazilian municipalities and, through partners, 205 international destinations in 95 countries. **SMILES** is one of the largest coalition loyalty programs in Latin America, with over 12 million registered participants, allowing clients to accumulate miles and redeem tickets for more than 700 locations worldwide. GOL has a team of more than 15,000 highly skilled aviation professionals delivering Brazil's top on-time performance, and an industry leading 16 year safety record. GOL's shares are traded on the NYSE (GOL) and the B3 (GOLL4).

Disclaimer

This release contains forward-looking statements relating to the prospects of the business, estimates for operating and financial results, and those related to growth prospects of GOL. These are merely projections and, as such, are based exclusively on the expectations of GOL's management. Such forward-looking statements depend, substantially, on external factors, in addition to the risks disclosed in GOL's filed disclosure documents and are, therefore, subject to change without prior notice. The Company's non-financial information was not reviewed by the independent auditors.

Non-GAAP Measures

To be consistent with industry practice, we disclose so-called non-GAAP financial measures which are not recognized under IFRS or U.S. GAAP, including “Net Debt”, “Adjusted Net Debt”, “total liquidity”, “EBITDA” and “EBITDAR”. Our management believes that disclosure of non-GAAP measures provides useful information to investors, financial analysts and the public in their review of our operating performance and their comparison of our operating performance to the operating performance of other companies in the same industry and other industries. However, these non-GAAP items do not have standardized meanings and may not be directly comparable to similarly-titled items adopted by other companies. Potential investors should not rely on information not recognized under IFRS as a substitute for the GAAP measures of earnings or liquidity in making an investment decision.
